

Texas Parent to Parent Presents...

Training Extravaganza!

Facilitated By TxP2P Staff

We're coming to San Antonio and hope to see you at one of our terrific (and FREE!) training sessions. Please join us!

Trainings Included (see back of this sheet for additional descriptions of each program):

Pathways to Adulthood - Transition Training – Participants will learn how to plan for high quality of life for their children after graduation by learning about funding, educational and health care transition, legal issues, and creative, collaborative ideas for creating work opportunities, a comfortable, safe place to live, and circles of support. 9:00 a.m. - 4:00 p.m. Contact: Cynda Green for more information.

Legislative Advocacy Network Training – Learn the skills of advocating for your child, your community, and the state - 9:00 a.m. - 4:00 p.m. Contact: Linda Litzinger for more information.

Speaker & Outreach Network Volunteer Training – Learn to do presentations and outreach to help TxP2P support more parents - 10:00 a.m. - 12:00 p.m. Contact: Jeanine Pinner for more information.

Family Centered Care—Building a Meaningful Partnership with Your Child's Doctor - 1:30 – 3:00 p.m. Contact: Jeanine Pinner for more information.

Texas Parent to Parent

No on-site registration allowed.

Registration will close when session is full.

Texas Parent to Parent

TxP2P Training Opportunities

Pathways to Adulthood (PTA) - Transition Training: When youth with special health care needs approach adulthood, parents face new worries and concerns. This workshop is designed to inform and empower parents so that they know what options are available and have the tools to build a good life for their sons and daughters after graduation. Topics include the emotional obstacles parents may face in planning, funding sources, guardianship/alternatives and estate planning, school transition services, and the transition to adult medical services. Participants will learn how to plan for high quality of life regarding work, home and circles of support and will have the opportunity to prioritize and develop short and longer term goals. Our parent volunteers help other parents on this important journey. Everyone is welcome.

Legislative Advocacy Network Training: The TxP2P Advocacy Network trains parents, siblings, young self-advocates (youth and young adults with disabilities), other family members, friends, and interested individuals to advocate for the issue of their choice. Examples include, but are not limited to: an appropriate education, community-based issues in health and human services, accessible transportation and housing, and meaningful employment for people with disabilities. Trained advocates will have regular interaction with legislators and their staff in order to create a face to disabilities for the legislators. Advocates will receive an initial training (travel expenses will be covered) and then continuing education via on-going conference calls and webinars, along with monthly reminders via our Adopt-a-Legislator listserv. This training is supported by a grant from the Texas Council for Developmental Disabilities. Everyone is welcome; please include your teens and young adults with disabilities.

Speaker & Outreach Network Volunteer Training: TxP2P gets invited to present and exhibit at many different conferences, seminars, and workshops across the state and we do not have the staff hours and/or funding to do all that we are asked to do. Our Speaker & Outreach Network Volunteers are trained to present and manage booths on behalf of TxP2P. Learn how to help in this way through this half-day training. Parents only.

Family Centered Care—*Building a Meaningful Partnership with Your Child’s Doctor:* The American Academy of Pediatrics (AAP) promotes the “medical home” as best practice. Just what is it? A medical home is not a place ... it is a partnership between a child, the child’s family, and the child’s primary health care setting. Families who have a “medical home” for their child receive information and support from a medical professional who knows them and their child, enabling them to make informed decisions about their child’s care. Join this session to learn more about this important partnership and how to create one for your child and family. Everyone is welcome.

Texas Parent to Parent is a nonprofit organization created by parents to provide support and information for families of children with disabilities, chronic illness, and other special health care needs throughout the state of Texas.
