

“Trick-or-Treat!”

SAFETY TIPS

1. Wear a costume that will not make you fall or trip. If you are carrying a sword or broomstick, remember you will be carrying it all night!

2. Make sure people can see you at night. Wear something reflective.

3. Go with a group of friends or a grown up.

4. Carry a phone and a flashlight.

5. Only go to houses that have a light on. Never go inside the house, and only accept candy when the door is open.

6. Stay on the route discussed with your parents. Do not leave the route. **Stay with your group!**

7. Never talk to a stranger in a car, or accept candy from them.

8. Careful when crossing the street.

9. If you no longer trick-or-treat because of your age, you can help pass out candy at the door.

10. You can go with younger brothers and sisters, cousins, neighbor friends, and help them to be safe when trick-or-treating.

11. Have a Halloween party!
