

A majority of students and adults with Intellectual and Developmental Disabilities within our community are home bound from school and/or adult day programs. Troubleshooting difficulties with children and adults with developmental disabilities can be difficult when a schedule abruptly changes. If you have any questions outside of your students teacher/campus or adult program and need assistance with understanding something that has been assigned for your loved one, please consider reaching out to one or both community educators listed below. They will be happy to send you additional resources or help you trouble shoot in this time of transition and uncertainty.
